

Flash Of Life

De/Vision

It drives me mad
What were you thinking of
To go away
Decided you've had enough
Your life was not your own, you know
You'll never know how much I'll miss you

In a flash of life
We will meet again
In another life
Who knows where or when
In a perfect life
Where we can be kings
In another life
We will take our wings

It makes me sad
You never had the guts
To tell the truth
What you were thinking of
Your life was not your own, you know
You'll never know how much I'll miss you

In a flash of life
We will meet again
In another life
Who knows where or when
In a perfect life
We can make it right
In another life
We go down side by side

In a flash of life
We will meet again
In another life
Who knows where or when
In a perfect life
We can make it right
In another life
We go down side by side
