

# Living Fast Dying Young

De/Vision

Young at heart and fuelled atomically  
We don't miss an opportunity  
Driven by our insecurity  
We're the ones in authority  
We've been waiting for this moment to come

Living fast dying young  
We're kickin' ass we are only having fun  
Somehow we get along  
Living fast dying young  
We're gonna embrace whatever comes along  
We don't know where we belong

We're not looking for your sympathy  
Everything ends in a minor key  
We're been living for this moment to come
