

Plastic Heart

De/Vision

I'm getting all I want
Leaving you nothing
My wish is your command

I make you fall apart
I'm sticking needles
Into your bleeding heart

Keep out of my plastic heart
You won't see through my plastic heart
Your cuts will not go too deep

Block you out of my plastic heart
You won't get through my plastic heart
All these secrets I must keep

I need your surgery
This operation
Needs to work out for me

Watching you try and try
While I am fainting
Far too limp to enjoy

Keep out of my plastic heart
You won't through my plastic heart
Your cuts will not go too deep

Block you out of my plastic heart
You won't get through my plastic heart
All these secrets I must keep

(Keep out of my plastic heart)

Keep out of my plastic heart
I will tear your world apart

Keep out of my plastic heart
I will tear your world apart
