

Star-Crossed Lovers

De/Vision

Don't lose your heart
We're made of sterner stuff
We like a bit of rough
Nothing in this world
Can keep me away from you
Lights up the night like you do

Life goes on
It holds no fear for us
Taking the smooth with the rough
Everything seems familiar
Weightless like a dream
Sometimes I can't even feel

Star-crossed lovers
Like no others no no no
