

## To Be With You

De/Vision

To be with you  
To be with you again  
Don't show your tears  
We know this is the end  
When I was young  
I looked into your eyes  
When I was young  
I saw that you were mine

To be with you  
To be my girl again  
The time has come  
No future in my hands  
When I want love  
You see it in my eyes  
When you want more  
I can see it in your smile

What I'm waiting for  
Is to be with you  
To be with you again  
What I'm waiting for  
Is to be with you Again
