To be with you
To be with you again
Don't show your tears
We know this is the end
When I was young
I looked into your eyes
When I was young
I saw that you were mine

To be with you

To be my girl again

The time has come

No future in my hands

When I want love

You see it in my eyes

When you want more

I can see it in your smile

What I'm waiting for
Is to be with you
To be with you again
What I'm waiting for
Is to be with you Again
