

Try To Forget

De/Vision

You...

You return in the night

Don't have a person to hold you

And you think about the past time

When you were, when you were still loved

You go to bed alone

Don't have a person to warm you

And you think about your last love

Then you try to forget

Try to forget

Try to forget

But you can't forget

You

You will show your tears and hide

And you hope that someone knows

That you are alone and takes you

And takes you in his arms

Your secrets are your thoughts

Write them down and start to cry,

Write them down and start to scream

Because you know you are alone
