

# Until The End Of Time

De/Vision

Break with the past  
This time I will make it last  
Your love is free  
Waste your precious youth on me

Until the end of time  
Until the end of time  
Until the end of time  
Until the end of time

Until the clocks stop turning  
Until the stars fall into the sea  
Until the walls come tumbling down  
Until we all die in misery

Until the sky is burning  
Until the dawn of eternity  
We will be forever  
There is always you and me

This is how it ends  
Erase your whole existence  
Go down with me  
Waste your precious life on me

Until the end of time  
'Til the end of time  
Until the end of time  
'Til the end of time

Until the world is ending  
Until all thoughts are history  
Until we stop pretending  
Until the ignorant can finally see

Until we'll meet in the next life  
Until whatever will be will be  
We will live forever  
There is always you and me
