Come Awake

Deacon Blue

When the daylight comes And come it will I'll get all my things And creep down the hall I'll light that ring For my first cigarette Walking out to the morning Pulling on your jacket

I can no longer watch I can no longer wait I can no longer hope I have come awake

That persistent sun Will warm my face Lighten my steps Till hours later I'll come back Throw my coat on the floor We'll talk tomorrow When tonight is over

I can no longer watch I can no longer wait I can no longer hope I have come awake
