

# One Day I'll Go Walking

Deacon Blue

Water  
Tiny at first then bigger  
And it flowed right down  
From the highest hill  
And it grew and it joined  
The battling burn  
And it flowed right through  
To where we are now

Standing  
Beside a cool cool stream  
It's hard to imagine  
The great and terrible river you'll be  
Bringing life or rest  
Or wonder  
Or high high tide  
And in times like this  
You bring me here

And when the wind is blowing quick time  
For the waves to be dancing by  
And the moon is watching over  
The purple gloaming sky  
I'll go walking  
Yeah  
One day  
I'll go walking

Sometimes I come down here  
And I don't know why  
It's like a garden or a room  
Or a dream that you  
Keep on trying to find  
It leaves you feeling that maybe  
Maybe there's a destination you've missed  
And all along the way you hope the reason that you came was blessing  
Hah  
Some holy kiss

[CHORUS]

Let me ask you a question

Give me the  
Just give me  
Just give me five

Did you see the picture  
Or did you read the book  
I mean  
Did you really go there  
Or were you only took  
I said  
Were you believing  
Or were you just shook  
Well I went inside and I  
It was dark and

Then I stood

I stared out long and fast  
Till my eyes were hurting  
And I saw the hands on the savior  
And all his bloody feet  
And his hair and his clothes were all  
Mattered and torn  
Were they only dirty from the beating of the soldiers or just  
Just from walking
