

# Take Me To The Place

Deacon Blue

Take me to the place where your heart hurts most  
Lead me through the dark world gates down there  
Where all the ghosts of sorrow and pain  
And fear and despair stay hiding  
And we'll walk right through to our own way, our own place

There's a beach that I walk so long and so broad  
Oceans away miles longer than pain  
In my glad dreams, I take you there, and it's easy  
Because the work and the hours  
And the pay are far behind our sure steps

My heart longs to be next to you  
My heart want's to be there, be there with you  
Where it's warm and tender and mercy flows like a river  
And there you stand with your wide open hands  
And say abide with me
