

The Lovers

Deacon Blue

The lovers baby
They walk through the earth
And nothing at all now
Is going to change what it's worth
They're lovers baby
And everyone knows
That only lovers girl
Follow where love goes

You can feed me darling
You can keep me even
But I don't pretend that
It all means anything

Unless we're lovers baby
Don't come and go
We only sleep through the world
And the world doesn't know
About lovers baby
We wait a long time
But once it all happens
It all comes right

There's no evidence darling
There's no steps in the sand
I couldn't even place
A ring on your hand

But we were lovers baby
And we waited our time
Till the waters had rolled
And the clocks had chimed
We're lovers baby
We wait a long time
We're lovers baby
Love is on time

Love is on time
Love is on time
Love is on time
