

# This Is a Love Song

Deacon Blue

Morning comes  
To the sound of bells  
Lying beside me saying  
You gotta be somewhere else  
There was a time  
Everything got lost  
Everyone and everything we once loved  
Was in the past

Cross the room and you're looking at me  
You touch the handle and you're looking at me  
Walking out that door still looking at me  
There's something there's something  
There's something you gotta know...

Morning comes  
I like awake  
I'm looking at you  
I only know today you're going away  
Look at your clothes  
Scattered on the floor  
Is nothing gonna change  
Is nothing gonna change any more?

I get so worried when you don't appear  
I get so worried when you come too near  
I'm standing in your way  
But you're still looking at me  
There's something there's something  
There's something you gotta know...

Love is enough  
Love will do  
Love lasts longer than  
Anything you're going through  
Love is enough  
Love will do  
Love lasts longer than  
Anything you're going through  
Love song  
This is a love song  
Love song  
This is a love song

You gotta walk a long way  
Walk a long way  
Walk a long way  
To come back again  
You gotta walk a long way  
Walk a long way  
Walk a long way  
To come back again

Love is enough  
Love will do  
Love lasts longer than  
Anything you're going through

Love is enough  
Love will do  
Love lasts longer than  
Anything you're going through  
Love song  
This is a love song  
Love song  
Love will do  
Love lasts longer than  
Anything you're going through  
This is a love song  
This is a love song  
This is a love song  
This is a love song
