

# Win

## Deacon Blue

Can't we just go out?  
See a film do something with the night?  
Lark about  
Morning comes too early every day  
The good bits always seem to slip away

Even though you think it's the last thing  
That's ever gonna happen  
There's one thing you should know

It's OK to want it  
Believe it, maybe now we need it  
We can win  
It's OK to dream it  
Feel it, maybe even steal it  
We can win  
Can't we go the distance?  
We can win

Riding on the bus  
Side by side as all the lights go up  
It's taking us  
Out of the darkness girl you won't believe  
Just look back this one last time with me

Even though you think we're running  
There's no way we're returning  
So you should know

It's OK to want it  
Believe it, maybe now we need it  
We can win  
It's OK to dream it  
Feel it, maybe even steal it  
We can win  
Can't we go the distance?  
We can win

When tomorrow comes, we're out of here  
Pack some things, gonna be our year  
Don't tell a soul I told you so  
But I bet on us from the first time I saw you...  
I knew we were going to  
Win

It's OK to want it  
Believe it, maybe now we need it  
We can win  
It's OK to dream it  
Feel it, maybe even steal it  
We can win  
Can't we go the distance?  
We can win

Can we go the distance?  
We can win  
Forget the worlds against us?

We can win  
We can win
