

Inside of Me

Dead By Sunrise

I feel my time is slipping away
Every minute that counts by seems like a day
I'll never get back the things I lost along the way
What the hell is wrong with me
This isn't who I'm supposed to be

I feel all alone everyday
And your so far away
I know something's got to change
Inside of me

What is it that I'm running from
My head is like a loaded gun
Everybody's trapped inside this web I spun
What the hell is wrong with me

This isn't who I'm supposed to be
I feel all alone everyday
And your so far away
I know something's got to change
Inside of me

I feel all alone everyday
And your so far away
I know something's got to change
Inside of me
Me
