One Step

Dead Letter Circus

I hate when you come around I hate what I've become now I hate that we compromised Just to grow closer Say that you're gonna go See I can't take it anymore I just can't find a way I won't lie

One step away from here and just a moment to go

Is it ok if I close my eyes
As we go further
I want escape from the compromise
As we come closer
Say that you're gonna go
See I can't take it anymore
This is my escape
One more lie

One step away from here and just a moment to go

It's just a moment
One step away...

Just can't find a way
