

## Come Inside

Dead or Alive

We all know  
That love is blind  
And it grows from deep affection  
While we all hide our feelings  
While we search for some protection

And you don't know  
What on earth to do  
And what I'd like to do  
Is offer me to you

(Chorus)  
Come inside  
My love is open wide to you  
Come inside  
I've got a place that I've been saving specially for you

Nobody said it would be easy for you  
To find someone who cares  
But there's someone waiting patiently  
Who'd be glad to have you there

But you don't know  
What on earth to do  
But what I'd like to do  
Is be the one you choose

(Chorus)

And you don't know  
What on earth to do  
And what I'd like to do  
Is offer me to you
