

Unhappy Birthday

Dead or Alive

Unhappy Bithday

I believed, I believed, I believed, I believed in you
I believed, I believed, I believed, I believed in you

It's my night
And everything should be so fine
And you look your usual devine
You make my eyes blur

Everybody's here and they're rocking to the house
I should have nothing to worry about

It''s my party, i can cry if I want to
It's me, girl, who all the wrong has been done to
You've blown out the candles on my cake

Something's wrong, you've been gone too long
Something's wrong, have you been getting it on?
Do you wanna spoil my birthday now?

Unhappy birthday
Unhappy birthday, baby!
Unhappy birthday
My party's been ruined
So stop what you're doing!

Well, you walked in
And everyone stood still to stare
And I saw the light in your hair
It told me "danger"

So how
How could you do what you've done?
For once I'm the innocent one

It's my party, I can cry if I want to
It's me, girl, who the crime has been done to
Someone left my cake out in the rain

Something's wrong, you've been gone too long
Something's wrong, have you been getting it on?
Do you wanna spoil my birthday now?

Unhappy birthday
