Human Duality

Dead Silence Hides My Cries

Do

We know the sense
Of our lives
Or how could it be found

We're enslaved by freedom And we wage war for peace Dreaming of far Eden Staying on our knees

We try to find
The truth being stuck
In lies we have
Created

Betraying for cash We start loving All the things we Have hated

We're enslaved by freedom And we wage war for peace Dreaming of far Eden Staying on our knees

We are the only black demons of this world We are the only white angels of this world

We make own graves Make own lives

So reach out your hands
I'll show the way
Reach out your hands
I'll show right way

We're enslaved by freedom And we wage war for peace Dreaming of far Eden Staying on our knees
