

Eradicated

Deals Death

Yaaaaaaaah

Rebellion

The thought is still living in my mouth
A treacherous gift is falling apart
When all is said and done
Hatred is showing its face once more
In all our hearts
A master plan for all the damned
Comes written in stone to take us down

As fire starts to spread the word
A message that consumes their world
All they get in response
Is a fucking act
Not much time is left for peace
As we force you down upon your knees
Let's cover it up
And let them die
Let them die

Eradicate them all
They don't belong
An army of determination
Will soon be here
Eradicate them all
Before they grow too strong
The secrets must be hidden
For all eternity

Eradicate them all
They don't belong
An army of determination
Will soon be here
Eradicate them all
Before they grow too strong
The secrets must be hidden
For all eternity
