

Dose of Country

Dean Brody

Let's beat the sun coming up on this Saturday
Pack the Chevy with some blanket so we can get away
Girl, we had a hard week in the city needs some country tonight, aw yeah

Baby wake up, let's get out of dodge
You grab your hairbrush, I'll grab the dog

We need some dance on a barn board floor tonight
Mason jars in our hands and some neon light
Some fire on a river and a little moonshine
For a real cleansing

We need to snuggle in a tent and some lantern fishing
A firefly dinner and some hugging and a-kissing
Where the sirens ain't blaring, there's no anxiety
We need a little less town, oh and a little ol' dose of country

I'm gonna row ya in a boat, hold your pretty hands
Watch the sun melt low from my deer stand
Need to purify our souls from the latte city life, aw yeah

Let's hit Billy Bob so he can deep in the creek
Trade this concrete jungle for some crickets and trees

We need some dance on a barn board floor tonight
Mason jars in our hands and some neon light
Some fire on a river and a little moonshine
For a real cleansing

We need to snuggle in a tent and some lantern fishing
A firefly dinner and some hugging and a-kissing
Where the sirens ain't blaring, there's no anxiety
We need a little less town, oh and a little ol' dose of country

Oh hang on...

Crickets in the moonlight, beer in the creek
Cooking on a campfire, smoke all over me
We can wear our camo, kiss under a tree
My idea of heaven baby won't you sing

We need some dance on a barn board floor tonight
Mason jars in our hands and some neon light
Some fire on a river and a little moonshine
For a real cleansing

We need to snuggle in a tent and some lantern fishing
A firefly dinner and some hugging and a-kissing
Where the sirens ain't blaring, there's no anxiety
We need a little less town, get me outta this town
We need a little less town, oh and a little ol' dose of country

Oh here we go girl

Crickets in the moonlight, beer in the creek
Cooking on a campfire, smoke all over me
We can wear our camo, kiss under a tree

My idea of heaven baby won't you sing

Crickets in the moonlight, beer in the creek
Cooking on a campfire, smoke all over me
We can wear our camo, kiss under a tree
My idea of heaven baby won't you sing
