

One of a Kind

Dean Geyer

So up and down I go
In my own universe
Taking the stars from the sky
Beyond the milky way
I wish that I could stay
And never come down

What's unbelievable, it's not impossible
Just step inside my head
You'll see what I can see
The possibilities of it, everywhere

I'm living in the moment
The light is brightest there
I'm dancing with a dreamers dust
It's everywhere
You can join me any time
And we'll be one of a kind
Whoa, whoa, whoa

It's inconceivable, that what they always said
Where have all the dreamers gone?
The journey's hard to find
I'll wave goodbye and run
I'll run

I'm living in the moment
The light is brightest there
I'm dancing in the dreamers dust
It's everywhere
You can join me any time
And we'll be one of a kind
Whoa (One of a kind), whoa, whoa

When you fall around the corner
Turning way to fast
Try to live forever before it's passed
It's only what you make it
Walk through that door
Imagination's beautiful, yeah
It's individual, not in the physical
It's a state of mind

I'm living in the moment
The light is brightest there
I'm dancing in the dreamers dust
It's everywhere
You can join me any time (You can join me any time)
And we'll be one of a kind
I'm living in the moment (One of a kind)
(The light is brightest there)
(I'm dancing in the dreamers dust)
(It's everywhere)
You can join me any time (You can join me any time)
And we'll be one of a kind

Whoa (One of a kind), whoa, whoa

One of a kind
