

## The 5th of July

Death By Stereo

Too confused to understand, we are human, we are one - one  
A hidden beating in the dark, you never thought that it would s  
park - spark

The beginning of the end, the abuse will be your end  
In this world we will defend, we ignite this fire  
Cause you want us

Defiled, these motherfuckers love to see you fail  
Lifetimes, we wage a war upon the scum you hail  
Inside, we have the strength to smash your whole empire  
This time, we will come with the fire - fire

How do you live with yourself, you are the meaning of disgust -  
disgust  
That badge of shame that you wear, murder is your one true lust  
- lust

The beginning of the end, the abuse will be your end  
In this world we will defend, we ignite this fire  
Cause you want us

Defiled, these motherfuckers love to see you fail  
Lifetimes, we wage a war upon the scum you hail  
Inside, we have the strength to smash your whole empire  
This time, we will come with the fire - fire

Murder

You are the filth; the blood is on your hands
