

# WTF is Going on Around Here?

Death By Stereo

You're just gonna stand there and let 'em get away with this shit?  
Let's fight!  
This system that holds us down  
Choke the right, force them down  
Let's fight!  
Let's fight!  
Let's fight!  
Let's fight!

This country that's fallen apart  
Left to the fucking oligarchs  
Stab the heart, let's start!  
Let's start!  
Let's start!  
Let's start!  
Let's start!

Are you living, are you dead?  
It's like a gun right to your head  
You gotta know this threat is real  
A hatred burning way inside  
It's time to take a stand, decide  
You gonna fight or simply kneel?

They cannot hold us down  
Hang 'em high, let's bleed 'em out  
Burn the world  
Stand up!  
Stand up!  
Stand up!  
Stand up!

This country that's gone to shit  
Let's make THEM suck our dicks  
I'm choking up  
Stand up!  
Stand up!  
Stand up!  
Stand up!

Are you living, are you dead?  
It's like a gun right to your head  
You gotta know this threat is real  
A hatred burning way inside  
It's time to take a stand, decide  
You gonna fight or simply kneel?

Let's go!  
Fuck it up

A shotgun shoved straight in your mouth  
This life is quickly headed south  
You gotta know this threat is real  
A hatred burning way inside  
It's time to take a stand, decide  
You gonna fight or simply kneel?
