All that I'll ever
All that I'll ever need

There are people who search their entire lifetime
Some will look and never find the one
I found mine on the climb
To the top and my world had begun

She
The one that I want
The one that I love
The only heart worth having
She
Showed me the way
My soul she did save
With her, my world's not crashing
All that I'll ever want is she

All that I'll ever
All that I'll ever need is she

There comes a day, tired of being a loner
You'll want someone and to start life anew
When you finally find them
Then you'll realize what you were meant to do

She
The one that I want
The one that I love
The only heart worth having
She
Showed me the way
My soul she did save
With her, my world's not crashing
All that I'll ever want is she

All that I ever
All that I'll ever need is she

Just when you feel like you may die alone
You find your answer and your heart becomes your home

She
The one that I want
The one that I love
The only heart worth having
She
Showed me the way
My soul she did save
With her, my world's not crashing
All that I'll ever want is she

All that I'll ever
All that I'll ever need is she
All that I'll ever
All that I'll ever need

She's the one
All that I'll ever need is
The only one
All that I'll ever need is she
