

Never ever

Deep Insight

I'm not waiting, just hoping for
Waking up into the night alone
You're not breaking
You promised to be safe
I'll send an angel to you in a prayer

You never ever told me
To say goodbye
You never ever told me
To hold on tight
To say goodbye

I'm not waiting, just counting on
You to come back, hold me when I'm cold
Hold on, everything is gone
If we hang up now and shut down our conversation

You never ever told me
To say goodbye
You never ever told me
To hold on tight
To say goodbye

We hold on these stationery song that we sing (2x)

You never ever told me
To say goodbye
You never ever told me
To hold on tight
To say goodbye
