Stay with me tonight

Deepside Deejays

Stay with me tonight, night, night, night, night
Never say goodbye, bye, bye, bye, bye
Close your eyes, be mine, mine, mine, mine, mine
Remember the good times together
Stay with me tonight, night, night...

I wish you know more then before
So let me know you're coming back for more, more, more, more, m
ore
I feel the world is very small
No matter where you go I need you more, more, more, more, more
I know where you go today, tomorrow
Cause you are my soul
I love you, you know
If a miss your day
I won't be too late
I'll be by your side

Stay with me tonight, night, night, night, night
Never say goodbye, bye, bye, bye, bye
Close your eyes, be mine, mine, mine, mine, mine
Remember the good times together
[x2]

Stay with me tonight, night, night, night, night
Never say goodbye, bye, bye, bye, bye
Close your eyes, be mine, mine, mine, mine, mine
Remember the good times together

Stay with me tonight, night, night...
Come give me some more
So give me some more
Come give me some more
So give me some more
Come give me some more
So give me some more
Come give me some more, more, more, more, more
[x2]
Some more
