

Different shit, same day, ain't nothing new.  
All doubles got addicted, got me feeling' like you.  
Fill scripts then we flip 'em.  
Fuck around and kill a bottle or two.

It's still DTDFL4EVA, never switch.  
Nothing like you narcs, we on some fly shit.  
Still cross my t's and dot my eyelids.  
Still got a crew, gotta feel I'm fuckin' down with.

I don't regret all the broken steps, they paved the way.  
Still say what I gotta say, got 'em feelin' some type of way.  
There's still beauty in the  
Breakdown, there's still rhythm in the chaos.  
Make no mistake, every day above ground in the underground.

That's a good fuckin' day.

It's still DTDFL4EVA, never switch!

I don't regret (I don't regret)
