B
Come on in, welcome, enter
Ab
We got you front row center for the freakshow parade
B
Everybody wants to be you
Ab
But I know you see right through this sad masquerade
F#   **C# Eb**
You wrap your arms around me like a wire
F#
You reach into my soul
C#
Pull out the fire
B   **Ab**
When I come undone I know you're the only one
Eb   **B**
Who can touch me when I call out your name
B   **Ab**
When I come undone I know you're the only one
Eb   **B**
Who can put me back together again
B
You got what it takes to make me
Ab
So won't you come and shake me out of this haze
B
All tomorrow's dreams you're selling

God knows but He's not telling
Ab
He's had better days
F#   **C#   Eb**
I wake to hear a voice above me calling
F#
You drag me to my knees
C#   **Eb**
But I'm still falling
B   **Ab**
When I come undone I know you're the only one
Eb   **B**
Who can touch me when I call out your name
B   **Ab**
When I come undone I know you're the only one
Eb   **B**
Who can put me back together again
F#
Can't close my eyes
C#
Can't hide the fear
Ab   **Eb**
I feel the earth beneath my feet disappear
F#
I'm out of words
C#

```
I'm out of time
Ab
Give me your hand
Eb
Reach out for mine

Solo (akordy sloky)

F#                                      C#  Eb

C#
Pull out the fire
B                           Ab
When I come undone I know you're the only one
Eb                          B

When I come undone I know you're the only one
