Nine Lives

Def Leppard

[Tim McGraw] Is your luck enough is your touch enough C'mon girl can you keep it up is your bluff enough [Def Leppard] Are you tough enough is your stuff enough can you start it up are you sharp enough let it roll, let em go, let em fly took a chance on a chance but the aces were high get it on, give it up, give it in you stole the wages of sin got to be in it to win [Chorus] nine lives, nine times to die I've been bitten once but I won't be twice shy nine lives, nine times to die

come on and show me your hand cause it's your time to cry Have you lost your touch are the stakes too much

did you spin the wheel and could you close a deal. Yeah, yeah! let it roll, let em go, give em style took a chance on a chance but the deuces were wild get it on, give it up, give it in you stole the wages of sin cause you're in it to win

[Chorus]

Nine lives, nine times to die I've been bitten once but I won't be twice shy nine lives, nine times to die come on and show me your hand cause it's your turn to cry

Hey!

Let it roll, let em go, let em fly took a chance on a chance but the aces were high get it on, give it up, give it in you stole the wages of sin got to be in it to win

[Chorus]

Nine lives, nine times to die I've been bitten once but I won't be twice shy nine lives, nine times to die come on and show me your hand cause it's your turn to cry

Nine lives, nine times to die I've been bitten once but I won't be shy twice Nine lives, nine times to die It's Russian roulette With every roll of your dice

And nine lives is all we're gonna get .. I said all we're gonna get yeah .. nine lives, nine times to die you've just bitten less than your nine lives
