

She's Too Tough

Def Leppard

Black stockings and a high-heeled dress
Good-looking but her face is a mess
She's no angel, oh no
Love loaded she's got plenty to spare
She'll pull your trigger if only you dare
She's no angel, oh no

She's too tough
Can't help it, She just can't help it
She's too tough
Can't help it, She just can't help it

Hands off, well it's Catch-22
Y' can't touch if she can't have you
She's no angel, oh no...
Whiplash give you six of the best
Lay back let her mind do the rest
She's no angel, oh no.

She's too tough
Can't help it, She just can't help it
She's too tough
Can't help it, She just can't help it
She's too tough
Can't help it, She just can't help it
She's too tough
Can't help it, She just can't help it
