

# No Relief

Defeater

Waking up safe and sound  
The words could hardly leave my mouth  
"How did I make it out alive?"  
I love the same sleep every night

"How did I make it out alive?"

I got your letter today  
And when I heard my name  
My stomach sand to the floor  
I can't take anymore  
I'm digging my own grave

And it read "Dear John"  
I knew this day would come  
I'm drinking every drip until nothing will stop  
Until you pull that rig from your arm

A wise man once told me  
There will be no relief  
We will never be free  
Of the horrible things  
And the pain that we've seen

And that same man was told

"No matter where we may roam  
You forget what you know of  
That life you once lived  
Because your home ain't never home"

I got your letter today  
And when I heard my name  
My stomach sand to the floor  
I can't take anymore  
I'm digging my own grave

And it read "Dear John"  
I'm drinking every drip until the ache will stop  
And it read "Dear John"

And it read "Dear John"  
I'm drinking every drip until the ache will stop  
And it read "Dear John"

And it read "Dear John"  
And it read "Dear John"

And it read "Dear John"  
I'm drinking every drip until the ache will stop  
And it read "Dear John"
