

## No Savior

Defeater

I quit believing in heaven  
I found no saviour in nothing  
I gave away my faith  
When I gave my brother a coffin

He was the air in my lungs  
He was the blood in my veins  
The reason I joined up  
The man that I'll never be  
A cigarette and a drink  
To burn away my night  
And keep the ache in my chest  
His candle burning bright  
These words they fall on deaf ears  
There is only guilt, death and grief  
Your god forgot about us  
He's just a thief and a cheat  
A cigarette and a drink  
To burn away my night  
And keep the ache in my chest  
His candle burning bright

He was the air in my lungs,  
He was the air in my lungs  
The man that I will never be  
He was the blood in my veins,  
He was the blood in my veins

I quit believing in heaven  
I found no saviour in nothing  
I gave away my faith  
When I gave my brother a coffin  
I quit believing in heaven  
I found no saviour in nothing  
I gave away my faith  
When I gave my brother a coffin

Let me be damned  
Let me be damned  
Let me be damned  
Let me be damned
