

Acid Hologram

Deftones

In the haze of your light
We bathe and wane
You've surrounded
Our hearts again

You smother me in shapes
In a secret praxis
You've showed me your charms
And revealed your name

Blow the clouds
From your mouth again
And smother me in shapes
You'll reveal your secret side

Your light will fade
And our hearts will sync
In time your disguise
Will shift and reverse

In the wave of your plume
We bathe and drink
You remind me of her again
Smother me in shapes

You'll reveal your secret side
Your light will fade
And our hearts will sync
In time your disguise
Will shift and reverse
