

Suffering

Degradead

Suffering, suffer a thousand deaths
All I have, go down

All the pain, pain that I'm bleeding out
All my heart, go down

Why don't you believe I am your fate
Why don't you believe I am your fate

Why

It's always coming back again

The same connection to your fear
A fallen creation drawing near

The same connection to your fear
A fallen

Suffering, suffer a thousand deaths
All I have, go down

All the pain, pain that I'm bleeding out
All my heart, go down

Why don't you believe I am your fate
Why don't you believe I am your fate

Why

It's always coming back again

The same connection to your fear
A fallen creation drawing near

The same connection to your fear
The only way we're going now is there

Why, don't you go down

Same

The same connection to your fear
A fallen creation drawing near

The same connection to your fear
The only way we're going now is there
