

I Need Your Help

Deitrick Haddon

In your prescence by myself
Just you and me lord and no one else
And I don't have to say a whole lot of things
You already know I need your help

My enemies want to see me fall
So they can say I told you so
Lord I don't mean to bother you with my small problems
But there is no where else I could go

Lord I need your help [x2]
Lord on my knees I fall
Lord I surrender all
And you can forgive me of my sins
I know that I can all over again
You got it now sing it with me...

Lord (Say I) I (I really do) need (yeah) your help
(I tried to do it on my own but I found out)
Lord (I need) I (I need ya) need your help

I traveled long on every side, there's no where to run or hide,
won't you hear my humble cry (yeah!)

Lord I need your help [x4]
