He Doesn't Care

Del Shannon

You think he loves you You think his love is fair You're so sweet to him And he doesn't care

He holds you closely And strokes your hair He's got you on a string And he doesn't care

All my life I've prayed for A love like yours Then he came along, dear And broke up our love affair

You think I'm lying You think he'll always care He's got you on a string And he doesn't care
