

Be Good To Yourself

Delbert McClinton

To say goodbye
Touched me deep inside
Baby, I hope it's not farewell
You can count on me
When it's a friend you need
All the same I hope it all goes well

Now be good to yourself every day and every night
Just get yourself a man you can depend to treat you
right
Just love one another until your dying day
May the sun shine down your way

You know the times we had
Have been far from bad
And I hope we come together once again
But until that time
We'll just say goodbye
I'll remember you until the very end

Now be good to yourself every day and every night
Just get yourself a man you can depend to treat you
right
Love one another until your dying day
May the sun shine down your way

You know the times we had
Have been far from bad
And I hope we come together once again
But until that time
We'll just say goodbye
I'll remember you until the very end

So good to yourself every day and every night
Just get yourself a man you can depend to treat you
right
Love one another 'til your dying day
May the sun shine down your way.
