

I Want To Love You

Delbert McClinton

I want to love you,
Take you in my arms and love you
It's not just because you're always on my mind,
With me all the time
I just want to love you

I want to kiss you,
Girl, and let you know I miss you
I'm having feelings like I've never had before,
And all I want is more
I just want to love you

Baby, are you ready to stop wasting time?
Would it blind you if I let my love light shine?

I want to trust you,
Turn my feelings over to you
Let you see the frightened child inside of me,
How frail a man can be
I just want to love you

Baby, are you ready to stop wasting time?
Would it blind you if I let my love light shine?

I want to kiss you,
Girl, and let you know I miss you
I'm having feelings like I've never had before,
And all I want is more
I just want to love you
