

# Mama's Little Baby

Delbert McClinton

Mama's little baby she's all grown up now  
Mama's little baby won't stay at home  
Mama's little baby's out all night dancing  
Can't leave mama's little baby alone

She shakes it in the kithcen, She shakes on the floor  
She even shakes down at the grocery store  
She's about a mover there's no doubt  
Mama's little baby lets it all hang out

Mama's little baby she's all grown up now  
Mama's little baby won't stay at home  
Mama's little baby's out all night dancing  
Can't leave mama's little baby alone

oh yeah  
all right

hoo hoo

She's hot as a pistol, cool as a clam  
She can pop corn just hold it in her hand  
Shaking that booty, rolling those eye's  
She can make a dead man come alive

She can't stop moving, she can't slow down  
if she did she'd just leave a big hole in the ground  
Mama's little baby goes on and on  
She don't leave no chicken on the bone

Mama's little baby she's all grown up now  
Mama's little baby won't stay at home  
Mama's little baby's out all night dancing  
Can't leave mama's little baby alone
