

Starting A Rumor

Delbert McClinton

I'm starting a rumor about you and me
That we've been seen out doing some crazy things
They say were tight as any two can be
I'm starting a rumor about you and me

They all be talking out of school
Like how we carry on like love sick fools
They say we look just like we were meant to be
I'm starting a rumor about you and me

It's gonna be all over town
That you're crazy 'bout the new love you've found
I'll make it easy for everyone to see
That it's me, yes all about you and me

I'm starting a rumor about you and me
That we've been seen out doing some crazy things
And they say were happy as we can be
I'm starting a rumor about you and me
I'm starting a rumor about you and me
