

# God Laughs

Delta Goodrem

When you come from a solid foundation  
It freaks you out when the ground starts shakin'  
And everything around you is breakin'  
Mum was goin' crazy together to keep it  
Dad's two lives he was keepin' it a secret  
When we found out we couldn't believe it

We're all walking on quicksand  
When we're busy makin' our plans, God laughs  
We're all walking on quicksand  
When we think that we understand, God laughs

I've been a sound board tryin' to be neutral,  
Born in the middle, it's hard to be useful,  
It's been hell, if I had to be truthful,  
OH! When people grow apart  
And people can change  
But it leaves a lotta mess  
That someone's gotta clean up  
It happened here to the family that i love

We're all walking on quicksand  
When we're busy makin' our plans, God laughs  
We're all walking on quicksand  
When we think that we understand, God laughs

And we're so stupid if we think we can control  
All the dark matter at the centre of this black hole  
It's gonna pull us under if we don't let go

We're all walking on quicksand  
When we're busy makin' our plans, God laughs  
We're all walking on quicksand  
When we think that we understand, God laughs
