

# Hypnotized

Delta Goodrem

Been living my life in commotion  
Like all the colors, bruised and broken  
Life has a lot of smoke and mirrors  
Seven years without love made it clearer

I woke up running with a pain in my heart  
Can't get there fast enough, yeah, fast enough  
No matter what I do, I gotta get to you  
Falling deeper in love, yeah, deeper in love  
You have got my hypnotized  
I lost control and now I'm trapped in all this feelings, going  
out of my mind  
I'm going deeper in love, yeah, deeper in love with you

Like a spell I've fallen under  
Intoxicating when you're closer  
Shower me with confetti rain  
Down from northern skies  
I'm gonna cut the strings off these balloon so watch them fly s  
o high

I woke up running with a pain in my heart  
Can't get there fast enough, yeah, fast enough  
No matter what I do, I gotta get to you  
Falling deeper in love, yeah, deeper in love  
You have got my hypnotized  
I lost control and now I'm trapped in all this feelings, going  
out of my mind  
I'm going deeper in love, yeah, deeper in love with you

I'm standing on the edge  
Looking on this brave new world  
Feeling vertigo, I take this step and just let go

Something's got me mesmerized  
Feels like I've been hypnotized

I woke up running with a pain in my heart  
Can't get there fast enough, yeah, fast enough  
No matter what I do, I gotta get to you  
Falling deeper in love, yeah, deeper in love  
You have got my hypnotized  
I lost control and now I'm trapped in all this feelings, going  
out of my mind  
I'm going deeper in love, yeah, deeper in love with you
