

# War on Love

Delta Goodrem

So I stand on this hill with my flag held high  
With the will to survive, bullets flying by  
Broken hearts scattered on this battlefield  
Holding out for something real  
I won't give in, I won't give up  
Fight the hope in this war on love

All the dust has settled  
I can finally see  
I'm crawling from the wreckage  
It's brought me to my knees  
Deep inside there's a hunger  
Waiting for some damn truth  
The light on the horizon  
Unanswered prayers belong to someone like you

So I stand on this hill with my flag held high  
With the will to survive, bullets flying by  
Broken hearts scattered on this battlefield  
Holding onto something real  
I won't give in, I won't give up  
Fight the hope in this war on love

I'm gonna hold my ground  
Broken arrow in my hand  
I'm gonna hold it high above  
Yeah, I won't back down  
I can see that the smoke is clearing  
Distant thunder's passing by  
And my heart is calling out  
Lets me know that I am still alive

So I stand on this hill with my flag held high  
With the will to survive, bullets flying by  
Broken hearts scattered on this battlefield  
Holding onto something real  
I won't give in, I won't give up  
Fight the hope in this war on love

I'm calling out can you hear the sound  
Of the drum that I'm beating so damn loud

So I stand on this hill with my flag held high  
With the will to survive, bullets flying by  
Broken hearts scattered on this battlefield  
Holding out for something real  
I won't give in, I won't give up

Fight the hope in this war on love  
Fight the hope in this war on love  
Fight the hope in this war on love

I won't give in, I won't give up  
I fight for us in this war on love
