

# How Glad I Am You Came

Demis Roussos

Here we are, you and I  
Time is passing by  
Nothing will be the same  
How glad I am you came

Here we are, holding each other  
Till morning comes  
Nothing will be the same  
How glad I am you came

You are my world now  
You're all that I know  
You are my whole life  
Nothing will be the same  
How glad I am you came  
How glad I am you came

You are my world now  
You're all that I know  
You are my whole life  
Nothing will be the same  
How glad I am you came  
How glad I am you came
