

# I'll Be Your Friend

Demis Roussos

I will never leave you,  
I will not deceive you,  
I will always be your friend.  
I will never leave you,  
I will not deceive you,  
Ill love to the very end.  
Ill be your friend and I will never let you down,  
Whatever happens I will always be around,  
When you're in troubles I will be right friend for you,  
I will help you whatever you do.  
We were lovers long ago,  
I still care for you, I want you to know.  
Ill be your friend and I will never let you down,  
Whatever happens I will always be around  
And when you need someone I wont be far away,  
Friends forever, not only today.  
You found someone else and I had to go,  
But I'll stay old friend, darling don't you know.  
Ill be your friend and I will never let you down,  
Whatever happens I will always be around  
And when you need someone I wont be far away,  
Friends forever, not only today.  
I will never leave you,  
I will not deceive you,  
I will always be your friend.  
I will never leave you,  
I will not deceive you,  
Ill love to the very end.
