

Love It Away

Demis Roussos

There was a time when we could feel the cough
Gets so thirsty we could drink it all love
I guess, we thought that love would never start
Here we are without a drawn
Let see there's a stone we haven't turned
Let see if there's a bridge between anger
The night is fading and it's almost gone
Let see if we can bring it home

Can we bring it home tonight
Turn on the love of life
Shining till the feelings right
Can we make it all the way (can we love it away)
But I love it (love it)
Love it away
Oh, love it (love it) love it away

Just one more time before insane would fail
Just a touch away from heaven or hell
There's no way around it, it's all coming down
I will lost around town

Can we brink it home tonight
Turn on the love of life
Shining till the feelings right
Can we make all the way (can we love it away)
But love it (love it) love it away
Oh, love it (love it) love it away...
