

# Maybe Forever

Demis Roussos

If anger finally finds me here  
Just like the trees so cold and bare  
Within another pointless night  
The cry that there is no peace in sight

And though it's time for sleep it seems  
You hurt me even in my dreams  
I thought the time would end this pain  
It's back again  
And it's like a long lost friend

And we'll be together  
Maybe forever  
Maybe forever

We'll be together  
Maybe forever  
Maybe forever

And in the street it starts to rain  
The life is carefully arranged  
But mine is broken past repair  
The rain outside is like a pray

I will remember  
Maybe forever  
Maybe forever

We'll be together  
Maybe forever  
Maybe forever
