Demon

Just to compete was once the prize  
Now mega bucks are in their eyes  
We light the torch then stand our ground  
Money makes the world go round

What price your chariots of fire  
Where's your spirit and burning desire?  
My God is that what you earn?  
Bionic Kid I gues I'm too old to learn

Now in my day all men were men  
And steroids were something not invented then  
With pride and honour true grit and sweat  
You could put down your money and make your bet

Wanna play with the big boys son?  
I can manage your account  
So go have some fun  
Jump when I tell you  
Win when I say  
And we can have a hell of a big pay day
