

Fever in the city

Demon

Fever's in the city
Fever's in the city

The wind she cries
A bell is ringing
Stood outside
I could hear the sound
Keep away
Before we know
Before we will know

Fever's in the city
The fever's in the city
People dying in the city
Fever's in the city

A lonely sign read welcome
Somewhere our side
For just someone
How do we
Heaven forgive them
For they finally blew the wall
It's a visitation to us all

Fever's in the city
The fever's in the city
People dying in the city
Fever's in the city
